

SAVE TIME, REDUCE EXPENSES AND INCREASE ACCOUNTABILITY

From staffing needs to census numbers, data powers decision-making in today's senior care industry. Now **Dashboards powered by Eldermark** lets you access all your daily, weekly and monthly community information at one convenient online site anytime.

Designed by and for the senior care industry

We've worked with industry experts to design **over 150 Dashboard options** to give you exactly the kind of **actionable insights** you need to run your community more effectively and efficiently. Simple but powerful, Dashboards lets you set up your system to decide what information you want to see and who is authorized to view it. Best of all, Dashboards is **accessible across all your devices**—so you can view it whenever and wherever you need it.

Learn how Eldermark can help your community achieve up to 42% profit margins.

MAKE MORNINGS MORE PRODUCTIVE

Before you start your day, what are the top metrics you need to see about your community to run your business?

With Dashboards, data is presented in an easy-to-understand and easy-to-use format. Just log in and your data is there—from clinical care alerts and employee issues to marketing reports and more.

MAXIMIZE YOUR MARKETING

using accurate, up-to-date data on your community's census, sales, revenues, referrals, occupancy trends and more.

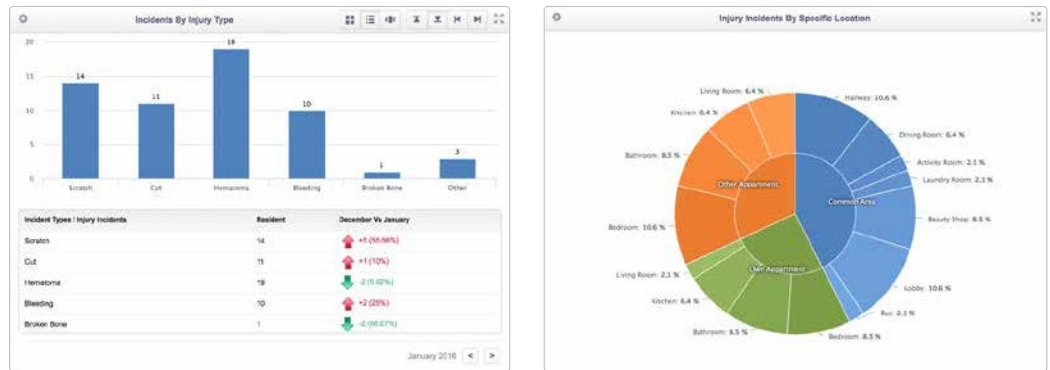

STREAMLINE SERVICES

by accessing real-time information on trends, shift status, providers, unscheduled or canceled services and more.

IMPROVE RISK MANAGEMENT

by cross-referencing data on incident reports, injury trends, resident demographics, prevention and follow-up services, and more.

Over 150 Dashboards

Customize your daily data to focus on whatever you need:

Clinical • Services • Marketing • Residents • Risk Management • Billing • EMAR • Notify • And more
