

AN AFFORDABLE, SUPERIOR FINANCIAL MANAGEMENT SOLUTION

With our powerful Eldermark Financials module, your senior community's essential financial data is integrated into an all-in-one, easy-to-manage tool. With its modern data storage capabilities and clean user interface, our cloud-based module was designed for today's online professional-intuitive, data-rich and highly mobile. Best of all, it has been specifically developed to help you find new ways to boost your bottom line. Manage cash flow more effectively, streamline payroll and invoicing operations—even save time and money with automated vendor and ACH payments.

Using Financials, our clients have consistently achieved profit margins as high as 42%. And you can too—more simply, efficiently and securely than ever.

COMPREHENSIVE REAL-TIME REPORTING. UNPRECEDENTED BOTTOM-LINE RESULTS.

Key Features & Benefits

General Ledger

Customizable to your current accounts setup, Financials' General Ledger supports recurring journal entries and allows you to have multiple fiscal periods open simultaneously.

Financial Dashboards

Financial Dashboards offer a clear snapshot of important business indicators—including real-time bank balances, accounts payable and receivable, an up-to-six-week moving cash forecast and more.

Sync Bank Accounts

Quickly and easily pull your accounts and transactions to automatically reconcile bank statements, balance multiple books and more.

Automated Payments

Say good-bye to printing and cutting checks. Financials lets you set up automated bill payments to vendors, ACH payments and more—so you save more time and money.

Cash Flow

Compare accounts payable and receivable in real time to monitor cash flow and effectively forecast future income and expenditures.

Manage Bills

Enter, edit and pay bills quickly. Post and track bills from any web-enabled device, create payment groups to streamline payment schedules and more.

Create Invoices

Get paid faster and improve cash flow with online invoicing. Create and edit invoices, review payments, create customer groups, track invoices electronically and more.

Budgeting

Build unlimited budgets from Financials' integrated data to help your business forecast its future. Easily attach documentation, assign budget items to additional users, access asset calculators and more.

Cloud Based

Our cloud-based technology lets you keep up to date with your business at work or on the go—with any web-enabled device.

Reporting

Create custom financial reports—from balance sheets to income statements—to fit your unique business needs.

Security

Industry-leading cloud infrastructure, advanced encryption and geo-redundant backups ensure your data remains secure and business continuity is maintained.
